

**Home Innovation**  
NGBS GREEN CERTIFIED™

THIS IS TO SIGNIFY THAT THE FOLLOWING  
PRODUCTS FOR RESIDENTIAL CONSTRUCTION

**NORDIC LAM PRODUCTS**

MANUFACTURED BY  
**NORDIC ENGINEERED WOOD**

HAVE BEEN CERTIFIED FOR POINTS TOWARD NGBS GREEN  
CERTIFICATION TO THE ICC 700 NATIONAL GREEN BUILDING  
STANDARD AS DETAILED IN NGBS GREEN CERTIFIED  
PRODUCT REPORT #NGBSGCP-00200.

**CERTIFICATE #00200**

This certificate is not a representation, warranty, or guarantee of product performance or certification of code compliance. For details of the product warranty, consult the product manufacturer.

NGBS Green Certified Product Report #NGBSGCP-00200

Products: Nordic Lam Products

Manufacturer: Nordic Engineered Wood

The product(s) shown on this report have been independently verified as eligible products for use in achieving points toward project certification under ICC-700 National Green Building Standard. Home Innovation Research Labs authorizes accredited verifiers to award points toward certification without additional documentation when the product(s) is used as noted below.

| 2008 NATIONAL GREEN BUILDING STANDARD |   |                            |   |
|---------------------------------------|---|----------------------------|---|
| PRACTICE #                            | PRACTICE DESCRIPTION  | POTENTIAL POINTS AVAILABLE | ADDITIONAL CONDITIONS OF USE TO AWARD POINTS  |
| 2008 NGBS 601.2                       | Structural systems/advanced framing techniques optimize material usage.   | 3 - 6                      | Product must be used to facilitate 24 inch OC framing or other advanced framing techniques, and columns and headers are sized for the load required and oversized members are not used. Points for each advanced framing practice using these products. |
| 2008 NGBS 606.1                       | Biobased products are used. 8 points maximum awarded.   | 6                          | To earn 6 points, this product must be at least 1% of the construction material cost AND another bio-based product, also at 1% of material cost, must be used. Lesser points are available at the 0.5% level.   |
| 2008 NGBS 606.2(2)                    | A minimum of 2 wood or wood-based products used for major elements are certified to the requirements of a recognized product program.   | 3 - 4                      | To earn 4 points a second certified wood product must also be used as a major element. Lesser points available for use with a minor element.  |
| 2008 NGBS 606.3                       | Materials used for major components are manufactured using a min. of 33% of the primary manufacturing process energy from renewable sources, combustible waste sources, or renewable energy credits (RECs). | 2                          | These products must be used for a major component of the building.  |

|                         |   |   |   |
|-------------------------|---|---|---|
| 2008 NGBS<br>607.1      | Products containing fewer materials are used to achieve the same end-use requirements as conventional products.   | 3 | At least 80% of the columns, wall studs, headers in the building are these products.  |
| 2008 NGBS<br>609.1      | A more environmentally preferable product selected based upon a Life Cycle Assessment (LCA).  | 3 | The builder should use the information available at <a href="http://www.corrim.org/">http://www.corrim.org/</a> to determine product selection. |
| 2008 NGBS<br>901.4(2-6) | A minimum of 85% of material within a product group (i.e., wood structural panels, countertops, composite trim/doors, custom woodwork, and/or component closet shelving) is manufactured in accordance with the following. 10 points maximum awarded. | 4 | Structural use plywood per PS 1 or PS 2. OSB per PS 2. All marked Exposure 1 or Exterior. Mandatory for certification.                          |

| 2012 NATIONAL GREEN BUILDING STANDARD |   |                            |   |
|---------------------------------------|---|----------------------------|---|
| PRACTICE #                            | PRACTICE DESCRIPTION  | POTENTIAL POINTS AVAILABLE | ADDITIONAL CONDITIONS OF USE TO AWARD POINTS  |
| 2012 NGBS<br>601.2.(1)                | Structural systems are implemented that reduce and optimize material usage. Minimum structural member sizes necessary in accordance with advanced framing techniques.                                       | 3                          | Product must be used as part of a design that uses structural members at spans and spacings equal to the maximum rating for the product.  |
| 2012 NGBS<br>606.1                    | Biobased products are used. 8 points maximum awarded.   | 6                          | To earn 6 points, this product must be at least 1% of the construction material cost AND another bio-based product, also at 1% of material cost, must be used. Lesser points are available at the 0.5% level. |
| 2012 NGBS<br>606.2(2)                 | A minimum of 2 wood or wood-based products used for major elements are certified to the requirements of a recognized product program.   | 4                          | To earn 4 points a second certified wood product must also be used as a major element. Lesser points available for use with a minor element.  |
| 2012 NGBS<br>606.3                    | Materials used for major components are manufactured using a min. of 33% of the primary manufacturing process energy for renewable sources, combustible waste sources, or renewable energy credits (RECs).  | 6                          | These products must be used for a major component of the building.  |
| 2012 NGBS<br>607.1                    | Products containing fewer materials are used to achieve the same end-use requirements as conventional products.   | 3                          | At least 80% of the columns and wall studs in the building are these products.  |
| 2012 NGBS<br>901.4(2-6)               | Materials used for major components are manufactured using a min. of 33% of the primary manufacturing process energy from renewable sources, combustible waste sources, or renewable energy credits (RECs). | 4                          | These products must be used for a major component of the building.  |
