				94 1/2	94 1/2	94 1/2

Notes:

1. The depth-to-width ratio shall be limited to 12:1.
2. The dimensions showed in black are the optimum dimensions for straight beams (maximum length of 62 ft).
3. Beams of dimensions in light grey are fabricated using manual techniques (maximum length of 80 ft).
4. Arched beams are available in dimensions up to 12 7/8 in. x 96 in. x 79 ft (width x depth x length).
5. Other dimensions are available on request; please contact Nordic.
